

VIE – IT Coordinator Digital Applications – AIR+ Program

Are you looking for a new challenge in a dynamic and multicultural environment? Do you have an experience in IT project management with a digital component? If you wish to join a committed group, seeking to have a positive and sustainable impact, join our leading international microfinance group!

*The position is based in one of our subsidiary in **Sub-Saharan Africa** for **a duration of 12 months**, potentially renewable.*

The AIR+ Program is an important overall digital transformation program of Advans Group, involving a new IT strategy and major changes in Infrastructure, Workspace, Security & Mobility and Solutions (including a new Core Banking Software). The overall program is supervised by the Group Transformation Team. It is conducted by the Central Program management of Advans Group, composed mainly of Group Program Managers specialised in each area.

What will your role be?

Reporting to the MIS Director, you will support and be part of the implementation of the Air+ Program, in close collaboration with the dedicated Program Team and the Group Central Program Management.

Your main missions will be:

- ⊕ Supervise adaptation and deployment of Digital Applications
- ⊕ Supervise implementation of all local interfaces in coordination with local IT and Group Program management
- ⊕ Determine key roles and tasks within the implementation team
- ⊕ Recruit and manage/coordinate all the project's IT staff
- ⊕ Carry out activities yourself if necessary, before finding the resources
- ⊕ Help local team in defining local test plan, test organization & execution, local cutover
- ⊕ Manage and challenge providers
- ⊕ Document and capitalize each key step implementation so as to support future implementations in other Advans Affiliates
- ⊕ Create the training material for Local key users and Local IT teams implementing AIR+

What kind of profile are we looking for?

You hold a master's degree in IT and you are interested in the microfinance sector and Advans' missions. You have:

- ⊕ Minimum 2 years' experience including internships, especially in project management with a digital component
- ⊕ A clear understanding of what IT solution project implementation means and is familiar with terms such as: functional design, testing plan, cutover...
- ⊕ Participated already in 1 E2E solution deployment
- ⊕ A good level in English and French
- ⊕ Good organization and communication skills and ability to be proactive and autonomous

Does this sound like you? You might just be the new team member we are looking for!
